DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on 8/24/06 was filed in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Laniado et al. (US 5,873,369, hereinafter Laniado). Laniado discloses a system and method wherein an ambulatory monitor has at least one sensor 24 for detecting a physiological parameter of a patient, as well as a housing 22a secured to the patient in a shirt pocket. The parameter is compared by a processor to a predetermined alarm limit, and if it exceeds a limit, a wireless transmitter creates an emergency notification. If the patient actuates the phone, the emergency transmission is prevented from being sent to emergency personnel.

4. Regarding claims 2-6 and 8-14, the housing is a cell phone, which inherently has mechanical buzzing and audible ringing, as well as buttons and a display.
